- Started working on notes and one-slide for the snapshot next Tuesday.
- Made a good deal of progress determining what we were going to talk about in a broad sense, and how we were going to let people know of our value proposition.
- OneDrive folder also updated with documents from last week, and with snapshot slide and notes that we are going to be using.
- Teammates have started thinking about/working on Unity research.
- Snapshot preparation has been completed
  - Single slide is formatted and has a good look to it
  - Each of the team members has a portion to present, and has their part written down
  - The team brainstormed questions that the audience may ask, and practiced answering questions to them.
  - We also practice presenting to get a feeling for how the real world experience is going to feel.
