

# MAD SABINO MEETING MINUTES

**Date:** September 28<sup>th</sup>, 2021      **Attendees:** Miguel Villanueva, Alex Peña, Dawson Hill

## Open Issues

- How much should we write in our project requirements document? Should it be pretty high level, or should we go into extreme detail? How can we do this without having more knowledge on the final product?

## What's New?

- GitHub and Unity project were setup by Miguel.
- Started work on the project management documentation
  - Project Schedule
  - Budget
  - Design Validation Plan
- Transferred what we learned about our client meeting into real, logical requirements.
- Formally stated our budget.

## Before Next Time

- Confirm that our budget is okay.
- Brainstorm ideas for project schedule and testing.

## Other Notes

- n/a
