MAD SABINO MEETING MINUTES

Date: September 21th, 2021   **Attendees:** Miguel Villanueva, Alex Peña, Dawson Hill

Open Issues

- How can we transfer what we learned in the client interview, into logical requirements?
- What do we need to have done for the project requirements document?
- How can we put into words what we feel like is the value of this project, in a format that satisfies the value proposition?
- We need to get the unity project started and the GitHub repo setup.

What's New?

- Finished the required documentation due this week. I.e., the project requirements document, and the value proposition.
- Made a OneDrive for the capstone project, and stored this weeks documents inside there to have easily accessible documents that each team member can see and work on.

Before Next Time

- Setup Unity project and GitHub.
- Start thinking through how we want to setup the project schedule.
- Consider what needs to be tested for this project.

Other Notes

- n/a
